

Demosphere How to Clone Team Rosters

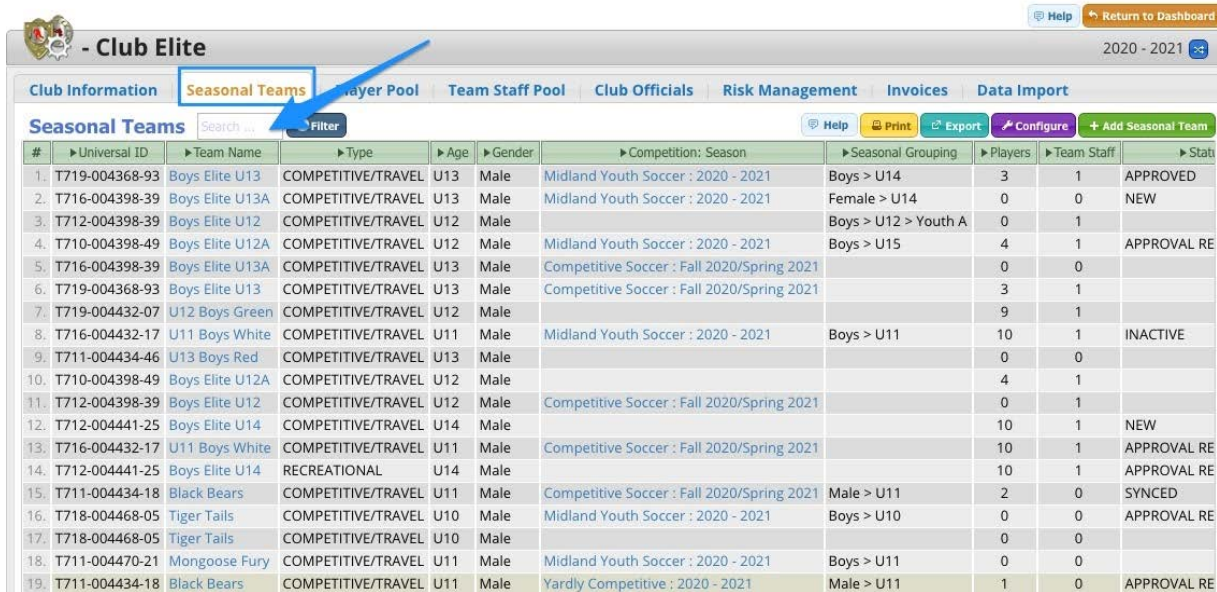

If you have teams that participate in more than one competition/league/event within your affiliate Association, you can clone an existing team and place into the new competition/event.

CLONING TEAM ROSTERS

Navigate to your Club within the Association’s Dashboard (not your Club dashboard):
Dashboard – Club Registrations – Club Management – Click on the name of your club.

Find the team you want to clone: Click Seasonal Teams tab and scan or search for the desired team.

Click the team name to load that team’s rosters and click “Clone Team Roster”

Boys Elite U14 U14 Male RECREATIONAL | 2020 - 2021
